All-A-Board Lifter®

Board Transport & Loading Made Easy

The All-A-Board Lifter® moves rigid substrates through narrow aisles, doors and between machinery. Feed boards into printers, use as a mobile work bench to meet changing workflow and space requirements.

Solidly constructed with these ergonomic design features:

- Body frame is constructed from clear anodized, t-slotted extruded aluminum fastened with metric hardware and extrusion specific fasteners
- Four heavy duty 5in diameter swivel locking casters can transport up to 1000 lbs of 4' x 10' media
- Handle along the back of the frame allows operators to maneuver and rotate table top from vertical to flat position
- Spring loaded latch mechanism locks table top in flat position
- Pull handle allows operator to easily release latch mechanism and return table to vertical position
- Durable high-pressure laminate surface, fastened to Lifter frame with counter-sunk (Flat Head Cap Screw) hardware that prevents scratching and is impact resistant

Quickly load a 6" stack of boards.

Rotate and lock top into a flat position.

What customers are saying:

"The All-A-Board Lifter® is like having is an extra person on the job. What a tremendous help this is - especially when our skilled staff is limited and we really need an extra hand. Since we work in such a confined space, the ability to flip the All-A-Board Lifter® vertically to move it through aisles to the printer or finishing department, then rotate it flat, makes lifting so much easier. The All-A-Board also eliminates the strain of lifting sheets from the pallet. It doubles as a transport device as well as a worktable. It's super light and moves like a dream. We need to order more!"

– Eric Berger, President, Color Reflections Philadelphia, PA

Available in 5 heights (34" to 42") that allows operators to position the All-A-Board Lifter at the edge of the printer bed

Model #	Description
61600.....	All-A-Board Lifter® 34" Height
61602.....	All-A-Board Lifter® 36" Height
61604.....	All-A-Board Lifter® 38" Height
61606.....	All-A-Board Lifter® 40" Height
61608.....	All-A-Board Lifter® 42" Height

Ships fully assembled FOB Montgomeryville, PA 18936 plus crating charge
