Introducing the new Easymount™ double hot wrap with independently heated top and bottom rollers

Dual emergency stops

Large swing out feed table

Additional mandrel holders - now metal

Unique 'fixed feet' feature

Pressure wheel

Large rollers give even pressure

EM-1600 DHW

Reverse Feature   Speed Control   Temperature Control

1 Year Warranty

Design

The new Easymount™ combines style with functionality. The design has been enhanced and more features have been added. This professional system is simple yet efficient.

Performance

The EM-1600DHW has heated rollers with a maximum temperature of 130° C . The rollers can be independently heated from 0° C - 130° C or both heated to use hot melt films.

Enhancements

The range now features additional mandrel holders for storing spare rolls of film, a swing out feed tray for hassle free loading and a pressure gauge on the rollers to give perfect results every time.

IDEALLY SUITED FOR

- cold laminates
- mounting prints to boards
- applying vinyls
- application tapes
- applying adhesive films
- vehicle wrapping
- canvas bonding

and many more...

GREAT FOR USE IN

- commercial printers
- copy print shops
- exhibition workshops
- reprographic units
- sign maker shops
