VVBEAM HYBRID LASER CUTTING MACHINE

Best solution cutting wood, metal and plastic with one machine

Features:

1. Auto focus system achieves desired cutting performance on non-even surface of steel sheet;
2. Professional control system allows operator easy work to switch cutting different material from metal and non-metal;
3. High quality components, such as square rail, high precision belt, imported mirror and focus lens, ensures stable and accurate working;
4. High power industrial chiller cools the laser tube and prolong the working life;
5. Dust protection design and exhaust system ensures the cleanliness of the machine and working environment;

Parameters:

Model	Hq1325
Working area	1300mmx2500mm
Laser power	130W/150W
Energy Adjustment	0-100% stepless control, inside software 0-100%adjust
Work table blade speed	≤600mm/s
Position accuracy	±0.05mm
Compatible format	AI/PLT/DST/BMP
Cooling mode	Industrial Chiller with Water-cooling and protection system
Power voltage	Ac220±10% 50~60HZ
Operation humidity	5%-85% (No Condensation)
Operation temperature	0-45°C
Type of laser tube	Sealed co2 glass laser tube
Driver	Servo
